

National HVACR Educators and Trainers Conference

Integrating R-410A into Your Training

**Presented by Dana Shanower
Lead Instructor for the United Association
R-410A Train the Trainer Program**

This session will cover how changes to the Montreal protocol have accelerated the phase out of R-22. The session will prepare educators and trainers to teach R-410A refrigerants safety, handling and proper application as well as retrofitting.

Bio:

Dana Shanower is the lead trainer for the United Association R-410A train the trainer program. The United Association of Apprentices and Journeyman train the workforce of over 3,000 of North America's top employers.
